PROFILE

I'm a Penultimate Computer Systems Engineering (Hons) student at the University of Auckland, passionate about building software across the full stack. I bring two AWS certifications, a strong project portfolio across cloud and frontend development, and hands-on experience building serverless, event-driven applications.

EDUCATION

University of Auckland - Auckland CBD, New Zealand

Expected Graduation Nov 2027

- Degree: *Bachelor of Engineering (Hons) in Computer Systems Engineering*
- Concentration: Embedded Systems & Software Design

EXPERIENCE

Teaching Assistant

Auckland, New Zealand

University of Auckland

Jun 2026 - Present

- Delivered teaching support across tutorials, lab sessions, and test invigilation for **ELECTENG 292: Electronics** to strengthen **student leadership** and technical laboratory techniques.

Robotics Instructor

Auckland, New Zealand

Creative Imaginary Lab (ciLab)

Apr 2026 - Present

- Instructed students in robot **hardware assembly and software programming** to complete missions, while coaching and supporting teams in preparation for **nationwide robotics competitions**.

Front of House (FoH)

Auckland, New Zealand

Twelve Restaurant

Jul 2024 - Jan 2025

- Collaborated with the team to keep front-of-house running smoothly, resolving complex customer situations efficiently.

CERTIFICATIONS

Amazon Web Services (AWS) Certified Cloud Practitioner

Apr 2026

- Demonstrated foundational knowledge of **AWS cloud concepts**, core services, and cloud architecture best practices.

Amazon Web Services (AWS) Certified AI Practitioner

May 2026

- Demonstrated knowledge of AI and machine learning concepts, **AWS AI/ML services**, and responsible AI practices.

PROJECTS

Sentiment PULSE – AWS | Individual Project | 2026

- Built a serverless, event-driven **sentiment analysis pipeline** using **AWS Kinesis, Lambda, and Comprehend**, in order to demonstrate the cloud skills gained from my AWS certifications in a practical, end-to-end project.
- Developed a live React dashboard backed by **DynamoDB**, in order to deliver **real-time visualisation** across data ingestion, inference, and display.

Web Design – KEB Project Playground | Team Project | 2025

- Delivered the **first website** for the Korean Engineering Body by collaborating with **senior software** engineering students, in order to give the previously website-less club a central platform for events.
- Built multi-page navigation and dynamic event pages using React 19, Vite, and React Router, **in order to help members** find and follow club activities.

SKILLS

Languages & Frameworks: Python, Java, JavaScript, C, React.js, Vite, Pandas, Scikit-Learn

Tools: AWS (Lambda, Kinesis, DynamoDB, Comprehend, Amplify), Cloud Firestore, Git/GitHub, Android Studio, Figma

AWARDS

3rd Place in 2025 ECSE Design Competition

Team Project

"Winnie the Bot" - Interactive companion robot

Sep 2025

- Built an AI-powered robot using dual **ATmega328P** microcontrollers, servos, an AI camera, and audio peripherals, in order to enable face tracking, arm movement, and voice dialogue.
- Contributed the **embedded hardware** and **enclosure prototyping**, in order to fit all electronics into a compact form.

ACTIVITIES & LEADERSHIP

Academic Team Executive

Auckland, New Zealand

KEB (Korean Engineering Body)

Jul 2024 - Present

- Tutored junior engineering students and assisted in planning academic events for the student community.

Full time Volunteer

Auckland, New Zealand

IEEE (Institute of Electrical and Electronics Engineers)

Jul 2025

- Volunteered 40+ hours full-time supporting competition operations at the nationwide NZ Robotics Olympiad 2025.
