PROFILE

Penultimate Computer Systems Engineering (Hons) student at the University of Auckland, specialising in embedded systems and full-stack development. AWS certified in both Cloud and AI/ML, with a proven project portfolio spanning serverless cloud pipelines, React web applications, and embedded robotics systems.

EDUCATION

University of Auckland - Auckland CBD, New Zealand

Expected Graduation Nov 2027

- Degree: *Bachelor's (Hons) of Engineering in Computer Systems Engineering*
- Concentration: Embedded Systems & Software Design

EXPERIENCE

Teaching Assistant

Auckland, New Zealand

University of Auckland

Jun 2026 - Present

- Delivered teaching support across tutorials, lab sessions, and test invigilation for **ELECTENG 292: Electronics** to strengthen **student leadership** and technical laboratory techniques.

Robotics Instructor

Auckland, New Zealand

Creative Imaginary Lab (ciLab)

Apr 2026 - Present

- Instructed students in robot **hardware assembly** and **software programming** to complete missions, while coaching and supporting teams in preparation for **nationwide robotics competitions**.

CERTIFICATIONS

AWS Certified Cloud Practitioner

Cloud Computing

Amazon Web Services (AWS)

Apr 2026

- Demonstrated foundational knowledge of **AWS cloud concepts**, core services, and cloud architecture best practices.

AWS Certified AI Practitioner

AI/ML

Amazon Web Services (AWS)

May 2026

- Demonstrated knowledge of AI and machine learning concepts, **AWS AI/ML services**, and responsible AI practices.

PROJECTS

Sentiment PULSE

AWS

Real-time Sentiment Analysis Dashboard - Individual Project

May 2026

- Built a serverless **real-time sentiment analysis** pipeline on AWS (**Kinesis, Lambda, Comprehend, DynamoDB**) with a live React dashboard
- Demonstrated end-to-end **cloud/NLP system** design across data ingestion, inference, and visualisation using an event-driven architecture

KEB Web Design

React.js

Homepage for club - Team Competition

Aug 2025

- Delivered the Korean Engineering Body's **first-ever website** in collaboration with **senior software students**, giving the club a central platform for events and activities
- Built multi-page navigation and dynamic event pages using **React 19, Vite**, React Router, and React Bootstrap for a fully responsive UI

AWARDS

3rd Place in 2025 ECSE Design Competition

Team Project

"Winnie the Bot" - Interactive companion robot

Sep 2025

- Built an AI-powered robot using dual **ATmega328P** microcontrollers, servos, an AI camera, and audio peripherals, in order to enable face tracking, arm movement, and voice dialogue.
- Contributed the **embedded hardware** and **enclosure prototyping**, in order to fit all electronics into a compact form.

ACTIVITIES & LEADERSHIP

Academic Team Executive

Auckland, New Zealand

KEB (Korean Engineering Body)

Jul 2024 - Present

- Tutored junior engineering students and assisted in planning academic events for the student community.

Full time Volunteer

Auckland, New Zealand

IEEE (Institute of Electrical and Electronics Engineers)

Jul 2025

- Volunteered 40+ hours full-time supporting competition operations at the nationwide NZ Robotics Olympiad 2025.

SKILLS

Languages & Frameworks: Python, Java, JavaScript, C, React.js, Vite, Pandas, Scikit-Learn

Tools: AWS (Lambda, Kinesis, DynamoDB, Comprehend, Amplify), Cloud Firestore, Git/GitHub, Android Studio, Figma
